Association of Steam, Hot Water and Power Pipe Fitters to maintain an erganization independent of the United Association of Plumbers was the only jarring note of the day's proceedings. The steam fitters have ignored the request of the thirty-first annual convention that they amalgamate with the plumbers, and are demanding recognition.

A fight in convention was averted to-day when the credentials committee made only a part'al report. When the list of accredited delegates was ead, a number of the steam fitters demanded to know what disposition has ead to the forty-eight States.

"No task in any way approaching this has ever before been performed by any party in our country. Such a feat, performed by volunteers hastily brought together, and without any previous co-operation with each other against the trained veterans of including the entire mercenary forces of politics—should be a source of pride not only to those who performed to the plumbers, and in the capacity of Americans for self-government.

This will close what is expected to be in all respects the best meeting the Daughters have held since the organization. They are, every one, according to the way the Virginians talk, brimful of enthusiasm and interest for "The Lost Cause." The subject will never grow old nor the topic stale while Virginia hearts beat for those who perished on the bloody battlefields. However much other things may er much other things may and decay, the Daughters o and the daugates will ever cherish to the from now will ever cherish to the fullest the memory of the brave Southern soldier who fought and diel for the cause he thought was right. A Different Kind of Player-Piano

The minute you hear the Stieff and Shaw Player Piance you'll note the difference. Nothing "mechanical" about their music! It lives and breathes like the playing of master. They play classic music like a Paderewski. Equally well do they play the latest popular song or ragtime.

Come in and Try the Stieff and the Shaw

Let us play one of those simple old melodies for you—note how the piano "sings," each note rich, pure, perfect. Workmanship and materials are magnificent! These Pianos are worthy of any home. You'll take pride in owning one.
